

General Medicine Vital Sign Assessment

SYNTHETIC TEST DATA — This document was generated for RAG system development and testing only. It does not represent real clinical guidance, a real hospital policy, or real patient information. Do not use for actual patient care.

Document ID: DOC_051 | Type: guideline | Domain: general_medicine

Purpose

This synthetic guideline illustrates the structure and content style of a domain guideline document for general medicine workflows.

Key Recommendations

#	Recommendation
1	Capture all core vital signs before allowing disposition
2	Record allergy status explicitly, never leaving it blank
3	Use two patient identifiers for every identity check
4	Document follow-up instructions for every discharge
