

Emergency Department Triage Principles

SYNTHETIC TEST DATA — This document was generated for RAG system development and testing only. It does not represent real clinical guidance, a real hospital policy, or real patient information. Do not use for actual patient care.

Document ID: DOC_054 | Type: guideline | Domain: emergency

Purpose

This synthetic guideline illustrates the structure and content style of a domain guideline document for emergency workflows.

Key Recommendations

#	Recommendation
1	Assign triage acuity using a documented scoring tool for every patient
2	Trigger immediate notification for the highest acuity levels
3	Capture chief complaint in the patient's or reporter's own words
4	Document a disposition and, where applicable, follow-up instructions before closing the encounter
