

Infection Control Standard Precautions

SYNTHETIC TEST DATA — This document was generated for RAG system development and testing only. It does not represent real clinical guidance, a real hospital policy, or real patient information. Do not use for actual patient care.

Document ID: DOC_058 | Type: guideline | Domain: infection_control

Purpose

This synthetic guideline illustrates the structure and content style of a domain guideline document for infection control workflows.

Key Recommendations

#	Recommendation
1	Perform hand hygiene before and after every patient contact
2	Apply transmission-based precautions per the patient's isolation status
3	Document isolation status prominently on the patient's active screens
4	Discontinue isolation precautions only per documented clearance criteria
